Additional Costs:

There have been changes to the regulations around costs forwarded on to parents, and the approach that schools are to use. The D0E policy states “Under the Education (General Provisions) Act 2006 (Qld) (Section 50(2)), the cost of ‘instruction’, ‘facilities’ and ‘administration’ are met by the State. State funding for schools does not extend to individual student resources such as textbooks, equipment for personal use and items used/consumed by the student in the classroom. Parents are responsible for supplying these resources to support student learning.” Please refer to costs outline below.

Additional Costs that will be invoiced through school:
